

# Baby's Head Start Impact Statement 2024

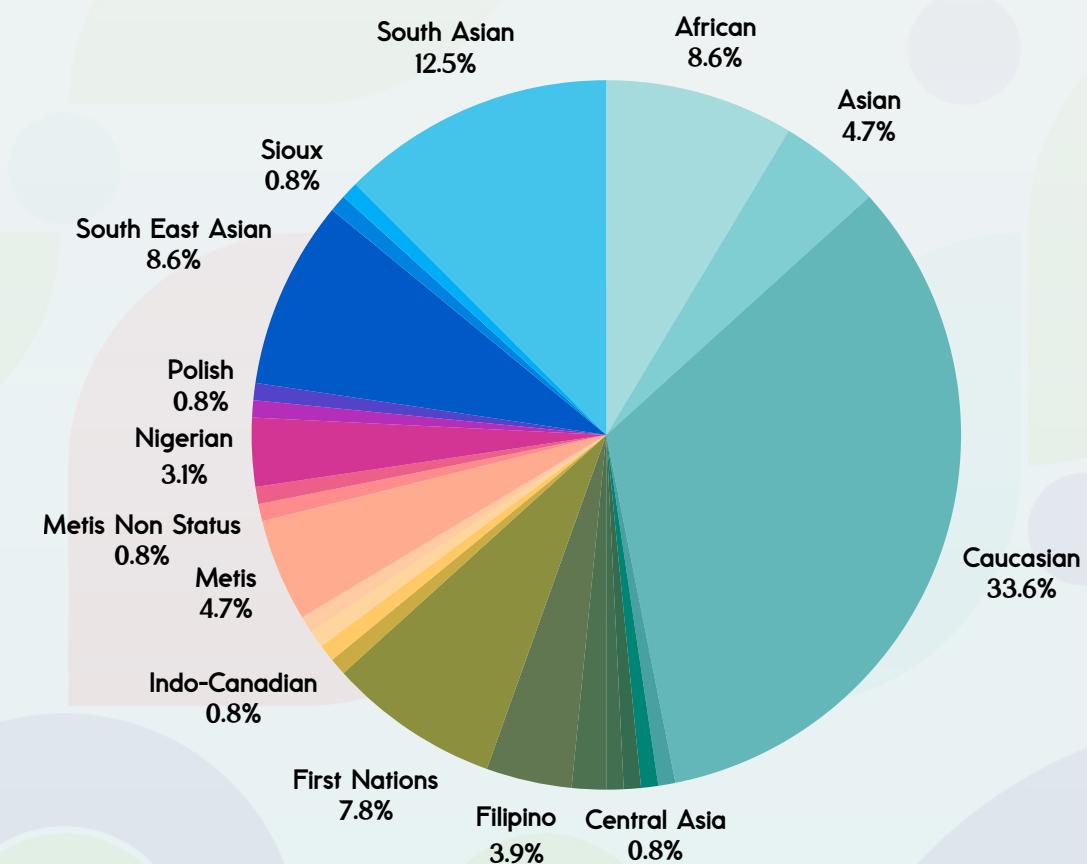

## Length of Service (days)

## Age of Participant

## Demographics

## Referrals and Wait Times

Average wait time to access service: 12 Days

63 new referrals in 2024

35% of referrals were self referrals.

## Noteable Trends

Even with the addition of the First Steps Pregnancy Triage Clinic last fall, BHS continues to see an increase in referrals.

BHS has seen an increase in dual income families accessing our program and finding it difficult to meet their basic needs for food, housing and transportation
